

JANESHNANDA K S

Backend Developer

Coimbatore, TN, India | +91-6383525530 | janeshnanda@gmail.com

[GitHub](#) | [LinkedIn](#) | [LeetCode \(140+\)](#) | CodeChef Peak: 1267

PROFESSIONAL SUMMARY

AI & Data Science student with end-to-end project experience spanning deep learning, computer vision, RAG/LLM pipelines, and full-stack backend development. Collaborated with Lehigh University on a live maternity health AI app. Presented autonomous drone research to Government of India (MSME — Rs 2 crore shortlist). Proficient in Python, PyTorch, TensorFlow, Scikit-learn, Pandas, and FastAPI.

TECHNICAL SKILLS

Python, PyTorch, TensorFlow/Keras, Scikit-learn, Deep Learning, Pandas, NumPy, OpenCV, LLMs/RAG/Agentic AI, NLP, FastAPI, Node.js, Express.js, React Native, MySQL, Firebase, Git/GitHub, Jupyter, Google Colab, Linux CLI, Postman

EXPERIENCE & PROJECTS

CareerPath AI — Developer Role Recommender & Roadmap Generator for Students Mar 2026 – Present

Python · LLM APIs · Vector Embeddings · FastAPI · Scikit-learn

- Built an AI-powered platform that analyzes a student's skills, coursework, and projects to recommend the most similar developer roles (backend, ML, full-stack, etc.) using semantic embeddings and similarity matching against real job postings, then auto-generates a personalized learning roadmap with milestones, curated resources, and project suggestions to close identified skill gaps.

AI / Data Science Intern — KGiSL School of Innovation

Jun 2025 – Jul 2025

Project: MIRAI — Deep Learning Breast Cancer Prediction · TensorFlow · Keras · Pandas · NumPy

- Built and trained a multi-class CNN (TensorFlow/Keras) on clinical breast imaging datasets using Pandas/NumPy preprocessing pipelines; presented research paper at National Conference on Machine Learning, KGiSL Institute of Technology (Dept. CSBS).

Last-Mile Autonomous Drone Delivery System — KGiSL School of Innovation

May 2024 – Apr 2025

PyTorch · OpenCV · Computer Vision · Embedded Systems

- Engineered an autonomous delivery drone with PyTorch/OpenCV vision modules for real-time package tracking, object detection, and distance estimation; shortlisted for Rs 2 crore MSME Government of India investment after live demo.

Automatic Job-Finding System — Parser.ai (RAG / LLM / Agentic AI)

Dec 2025 – Present

LangChain · Vector Embeddings · LLM APIs · FastAPI

- RAG pipeline that scrapes job listings across platforms and matches them to user skill profiles using LangChain, semantic vector embeddings, and LLM APIs; results served via a FastAPI REST endpoint with structured JSON output.

Book-Kiosk Self-Service System

Nov 2024 – Jan 2025

FastAPI · Firebase · RFID · MySQL

- Self-service library kiosk with RFID hardware tracking, a FastAPI-powered backend service, and a Firebase real-time database for instant availability updates — eliminated manual book-processing entirely.

ACHIEVEMENTS & CERTIFICATIONS

- MSME Presentation — Drone project shortlisted for Rs 2 crore Government of India investment.
- Competitive Programming — LeetCode 140+ | CodeChef Peak 1267 (Div 4) | Global Rank 74,220 | Country Rank 70,293.
- Certifications: Oracle OCI AI Practitioner · DeepLearning.AI TensorFlow Developer · IBM Machine Learning · CS50 Python · CS50 Technology · Cambridge English ESOL

EDUCATION

KGiSL Institute of Technology — B.Tech in Computer Science & Business Systems

Sep 2023 – Present

PSG Public School — Higher Secondary (Physics, Chemistry, Mathematics)

Jun 2008 – Mar 2023
